ABOUT THE COLLEGE
University College of Engineering, Villupuram (UCEV) a Constituent College of Anna University was started in the year 2008. The College offers five Under Graduate Courses and a Post Graduate Course in the field of Engineering & Technology. The College is situated at Kakuppam, Villupuram town with an extent of 17.5 acres which includes excellent academic building, hostels, mess and canteen. The College is well equipped with smart lecture halls, spacious conference Halls, necessary laboratories & advanced equipments for research and academic activities. The students from different background are admitted on the basis of merit through TNEA, conducted by Anna University. UCEV mission is to groom as the unique standard institution providing opportunities for students to improve technical, research employability skills and to explore a wide range of activity to compete in the competitive world.

ABOUT CHEMISTRY DEPARTMENT
The department values teaching and research as equal and essential components of the education. We integrate research with teaching curriculum. The department also strives to help students become scientifically responsible citizens, with the knowledge skills, attitudes and values that will allow them to be successful in scientific or non-scientific professions. Further we interact with scientific community through Chemistry Association by conducting various programme. With all its dedicated activities, the department will help to enhance the recognition and reputation of University College of Engineering locally, regionally, nationally and internationally.

About NWRAEMCS 2016
The conference will provide a multidisciplinary platform for students, scientists, engineers and professionals from various disciplines to discuss the recent development in engineering materials & chemical sciences. This NWRAEMCS-2016 also aims to promote exchange of ideas and create a platform for collaborative endeavours in the emerging interdisciplinary areas and provide an opportunity for the younger researchers to get exposed to the excitement of advanced materials research. Contributory papers relevant to the development of materials & chemical sciences but not limited to the following fields are invited.

- Nanotechnology/Sensors/Fuel Cells/Solar Cells / Photocatalysis / Environmental Application.
- Polymers–Synthesis and Applications/Catalysis.
- Theoretical Studies/Modelling / Computation.
- Biomaterials / Cheminformatics / Corrosion / Biofuels.

Selected articles will be published in special issues of reputed international journals after review.

NWRAEMCS 2016
Who Should Attend?
Faculty Members, Research Scholars and Young Engineers from academics and Industries are encouraged to attend this workshop.
